VirtuaTeLL 2024: TESOL in New Academic Reality with Generative AI
ZOOM LINK WILL BE SENT TO YOU VIA THE EMAIL YOU SUBMITTED FOR REGISTRATION
09:00 AM - 03:00 PM EST
TESOL in New Academic Reality with Generative AI

The conference theme, "TESOL in New Academic Reality with Generative AI", explores the transformative potential of Generative AI in the field of Teaching English to Speakers of Other Languages (TESOL). This conference will delve into how artificial intelligence can impact TESOL, creating a new academic reality where personalized and interactive learning experiences are the norm. Attendees will gain insights into the application of AI in language teaching, learning, assessment, and research (and more) through carefully selected thought-leaders in the field who will share their experiences and vision for the future of TESOL in a new academic landscape.
